

TracPhone® FB150

Maritime Satellite Communications

Small & affordable broadband

Key Features & Attributes

- Affordable hardware designed for the harsh marine environment
- Always-available 150 Kbps data connection with outstanding quality voice and text messaging
- Rugged, compact antenna is reliable, simple to install, and easy to integrate with your computer or phone network
- Global coverage via Inmarsat's I-4 satellite constellation
- Backed by KVH – the leader in mobile broadband

Remarkably Affordable

KVH is making Inmarsat service practical for almost every vessel:

- Airtime packages starting as low as \$199 per month
- Affordable hardware/airtime bundles

There's never been a better time to upgrade your satellite communications

A new generation of fast, reliable, and affordable maritime satellite communications

Now you can bring true broadband connections along for your next trip to sun-drenched harbors and distant locales with KVH's ultra-compact satellite communications system – the TracPhone FB150 with Inmarsat FleetBroadband service. With FB150, even small vessel owners can afford to have access to weather data, sea conditions, chart updates, as well as communication with family, friends, and the office when at sea.

Rely on broadband data to help save time and fuel while spending less time in port and more time out on the water.

The ability to always make a high-quality voice connection will provide peace of mind in adverse conditions.

KVH's TracPhone FB150 packs loads of power and a surprisingly affordable price in an incredibly small maritime satellite antenna. Plus, its fully integrated design makes it easy to install, while connecting your computer is as simple as plugging into the system's Ethernet port. Enjoy broadband connections as fast as 150 Kbps, outstanding quality voice connections, and even send and receive SMS text messages – all at the same time.

The rugged TracPhone FB150 is designed for the marine environment, enabling you to stay connected by voice or Internet even in rough conditions. With TracPhone FB150, broadband at sea is small enough and affordable enough for you to rely on wherever you are cruising. And it's all brought to you by KVH and Inmarsat, the leaders in maritime satellite communications, so you'll never worry about whether or not your call will go through when you absolutely need to connect.

TracPhone FB150 Antenna Unit

Service	Inmarsat FleetBroadband
